## Governor Opportunity

St Sebastian's Primary School, Great Gonerby have vacancies for Foundation Governors from February 2018.

We offer full training and support in your role as Governor with ongoing development.

The commitment would be a full Governing Body meeting 4 evenings per academic year and you will be required to take on a specific responsibility. This may be to support teaching and learning, pupil premium / SEND or to offer support and monitoring to middle leaders in the school with a half termly visit and report.

It is not necessary you have prior experience of the role or working in schools, we want to expand our skill set and knowledge base to bring fresh ideas and insights to the work we do in supporting our amazing children.

It is necessary you uphold the Christian ethos that underpins the education we offer to our children and that you keep to your commitment to the Governing Body.

Parents say; "Older Children make younger children feel loved."

" The values of the school are fantastic and they enhance our family values."

We are forward looking and determined to build a legacy so future generations can enjoy an education that values the 'whole child.'

If you would like some more information please contact Steve Martin.
